BRIEF DESCRIPTION:

The presentation will provide resources and insights into how to:

- educate students to be change agents for sustainable development for systemic societal change
- increase awareness and preparation for green and sustainability careers
- provide key items for faculty and staff professional development
- include key components of quality sustainability assignments and
- align scholarly activities with the SDGs as an emerging trend.

AVAILABLE RESOURCES:

References, books, articles, other support materials, links to platforms, etc.

FOCUS ON INNOVATIVE PEDAGOGIES:

Based on the IP Handbook, if the case Building sustainability in Learning & Teaching
