## STUDENT COST COVERAGE CALCULATION

- Travel costs and individual support for student short term and blended mobility activities are based on unit costs as an internal rule applying to all the beneficiaries.
- These unit costs are based on Erasmus +2020 program guide and are the following:
- Travel costs based on the travel distance per participant: travel distances must be calculated using the distance calculator supported by the European Commission
(http://ec.europa.eu/programmes/erasmusplus/tools/distance en.htm).
- The distance of a one-way travel must be used to calculate the amount of the EU grant that will support the round trip.

| Travel distances $^{34}$ | Amount |
