

CIVIS 2023 Days 3

24-26 May | University of Tübingen
SUSTAINABLY CONNECTED UNIVERSITIES

Co-funded by
the European Union

Project number: 101089983

CIVIS, Europe's Civic University Alliance, is a European University Alliance gathering 11 member universities: Aix-Marseille Université (France), National and Kapodistrian University of Athens (Greece), University of Bucharest (Romania), Université libre de Bruxelles (Belgium), University of Glasgow (UK), University of Lausanne (Switzerland), Universidad Autónoma de Madrid (Spain), Sapienza Università di Roma (Italia), Paris Lodron University of Salzburg (Austria), Stockholm University (Sweden) and Eberhard Karls Universität Tübingen (Germany).

Selected by the European Commission as one of the first 17 European Universities pilots, it brings together around half a million students and more than 70 000 staff members, including 37 400 academics and researchers.

In 2022, CIVIS signed a partnership agreement with 6 strategic African partner universities: Université Hassan II de Casablanca (Morocco), University of Sfax (Tunisia), Université Cheikh Anta Diop de Dakar (Senegal), Makerere University (Uganda), University of the Witwatersrand (South Africa), Universidade Eduardo Mondlane (Mozambique).

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor the granting authority can be held responsible for them

**Co-funded by
the European Union**

Introduction

The CIVIS Days aim to:

- Bring together actors from all member universities who are driving the Alliance, thereby creating a space for exchanges across various CIVIS bodies.
- Showcase the achievements and added value of the CIVIS Alliance for each university to audiences inside and the outside the member universities.
- Present to the CIVIS community one university in its specificity and its environment.

The priorities of the CIVIS Days 2023 are:

- Celebrating the academic substance of the Alliance and the societal relevance of the academic work within the five CIVIS Hubs.
- Portraying CIVIS as an Alliance constituted by strong and long-lasting connections that promote the flow and exchange of people, ideas, and information as well as many kinds of creative, innovative collaborations.
- Emphasising the commitment of CIVIS to sustainability and putting it into practice.

Sustainability – right in your conference bag

Following the motto “CIVIS – sustainably connected universities”, all items in your conference bag do justice to our commitment to sustainability: the **pen** and the **notepad** are made of recycled and renewable materials. The AWARE™ Tracer of the recycled cotton **bag** assures the use of genuine recycled fabric materials as well as water reduction claims through disruptive physical tracers. The printed **programme** provided in your conference bag only contains the main overview and the maps, whereas the extended version with additional information is available in this digital version. And we hope you will find a usage for the **lanyard** and the **conference folder** back at home.

We also provide you with a reusable **coffee mug**, made of organic bio-circular plastic wood fibre. The cup can also be used outside the conference in Tübingen’s local shops. Otherwise, you will need to pay a “packaging tax” for disposable cups, introduced in Tübingen in 2022. To prevent your coffee cups from getting mixed-up, we invite you to personalise your mug with the **removable labels** included in your bag.

PROGRAMME

All times are CEST.

If members of several CIVIS bodies or groups participate in a meeting, the body chairing the session is marked in bold. If you like to join a non-public working session virtually, please contact the chair.

How to get to Tübingen and around in Tübingen:

From **Stuttgart Hauptbahnhof (Hbf, central station)**, you can take the **IR6, MEX12 or MEX18** to Tübingen Hauptbahnhof. They will take between 45 and 60 minutes. You find timetable and can buy tickets [online](#) or at vending machines at the station.

From **Stuttgart Airport**, the airport shuttle "[Airport Sprinter](#)" (**Bus route 828**) runs hourly from the **central bus stop in front of Terminal 1** of the arrival section. You can buy your ticket at vending machines inside the bus or directly from the bus driver. A single ticket costs 7,80 Euro. You can find the departure times [here](#). The Airport Sprinter, which is marked by the sign of a little plane ✈️ in the timetable, takes 50 minutes. Buses without this sign have more stops and therefore take 20min longer than the Airport-Sprinter. However, all buses No. 828 arrive at Tübingen main station.

Most **CIVIS Days venues** are within walking distance of most hotels. Alternatively, you can take the bus. An map of bus routes can be found [here](#). You can also use Google Maps or the regional public transport app "**Naldo**" ([Apple](#), [Android](#)) to plan your travel.

Below, we list the bus routes and stops for the three venues, which are not directly in the city-centre.

| Venue | Bus routes | Bus stop |
|---------------|---------------|--------------------|
| ZDV | 1, 7, 21 | Pauline-Krone-Heim |
| Neue Anatomie | 5, 13, 18, 19 | Uni-Kliniken Berg |
| GUZ | 5, 13, 18, 19 | BG Unfallklinik |

You can buy your ticket at **vending machines inside the bus**. You can pay with card, cash or your smartphone. A single ticket costs 2,80 Euro. You can also buy it within the Naldo app. And if you stay for the weekend in Tübingen, you can ride any bus for free on Saturday.

Internet access at the University of Tübingen:

If you are a member of an **eduroam** facility and a guest at the University of Tübingen, we recommend selecting the wifi SSID "eduroam". Enter your home university's login ID and password in form of <home login ID>@<home univeristy. Country>. In case of problems, you will need to contact the support of your university.

Alternatively, the wi-fi **UTguest** is an open network, which does not require an account.

Where to eat in Tübingen

| | |
|---|--|
| Liquid Kelter (Modern German-Mediterranean cuisine with wine bar) | <ul style="list-style-type: none"> • Open Tuesday-Saturday from 5pm • Schmiedtorstrasse 17, 72070 Tübingen |
| Neckarmüller (German cuisine and beer-brewery) | <ul style="list-style-type: none"> • Open Monday-Saturday 11.30am – 1pm • Gartenstraße 4, 72074 Tübingen |
| San Bao (Chinese cuisine) | <ul style="list-style-type: none"> • Open daily 11.30 am – 10pm • Neckargasse 22, 72070 Tübingen |
| Stern (Italian cuisine) | <ul style="list-style-type: none"> • Open Tuesday-Saturday 12 (noon)-2pm and from 6pm • Lange Gasse 4, 72070 Tübingen |
| Weinstube Forelle (Traditional local German cuisine) | <ul style="list-style-type: none"> • Open Monday-Saturday 12 (noon) – 3pm and from 6pm • Kronenstraße 8, 72070 Tübingen |
| Wurstküche (Traditional local German cuisine) | <ul style="list-style-type: none"> • Open Monday-Saturday 11.30 am – 2pm and from 6pm-9pm • Am Lustnauer Tor 8, 72074 Tübingen |

PUBLIC EVENTS

CIVIS – A Sustainably Connected Alliance

CIVIS aspires to be a sustainably connected alliance that enables free exchange and intensive cooperation. How can these solid connections among our universities best be developed to become long-lasting, inclusive and environmentally responsible? What should be our guiding principles? What are the obstacles we encounter and how can we deal with them?

At this opening event of the 2023 CIVIS Days, we will explore these questions and provide opportunity for discussions. Daniela Trani, founding Director of the YUFE Alliance, will set the stage by discussing the tools that have been most effective and promising in building strong Alliances, and how to overcome the challenges to connectivity. Students from partner universities in CIVIS will share their own experiences of the benefits of being able to move easily within the Alliance. Experts from CIVIS, other Alliances and the European Commission will comment on the key commitments that European University Initiative upholds and that CIVIS will put into practice: Greening and sustainability; inclusiveness and diversity; extending connectivity to partners on the African Continent; and engaging societal actors in our connected space.

An Innovative Academic Alliance: Showcasing the CIVIS Hubs

Hub 1: Taking on wicked problems in the Anthropocene. What is the role of education?

The challenges of the Anthropocene Epoch are multifaceted and complex. As Europe and the rest of the world emerges from the coronavirus pandemic, humanity is faced with an array of complex and interwoven challenges. The coupled climate, environmental and energy crises are at the centre of all of the challenges that face us today. These are wicked problems. This means that misguided and partial solutions can have unexpected and unwanted repercussions. Therefore, as we approach 2030, education must be a guiding force for solution finders. These solution finders need a new kind of education which leaves traditionally academic silos behind and approaches Anthropocene challenges in the transdisciplinary manner which wicked problems demand. This session will focus on the role of CIVIS in putting challenge-based transdisciplinary education centre stage in Europe.

Speakers:

- Alasdair Skelton (Stockholm University)
- Ria Dunkley (University of Glasgow)
- Todd Ehlers (University of Glasgow)
- Gudrun Zagel (Paris Lodron University of Salzburg)
- Andreas Lang (Paris Lodron Universität Salzburg)

Hub 2: Cultural heritage - global challenges

Hub 2 “Society, Culture, Heritage” will address the various challenges that arise with the global effort of cultural preservation. Connecting experts from multiple disciplines, focal points of the discussion may range from issues as foundational as the definition of cultural heritage, interpretive sovereignty and the handling of property, to the ever-current threats of othering, cultural separatism and gatekeeping.

Speakers:

- Vassiliki Chryssanthopoulou (National and Kapodistrian University of Athens)
- Helga Mitterbauer (Université libre de Bruxelles)
- Alexandra Litu (University of Bucharest)
- Matthias Heinz (Paris Lodron University of Salzburg)
- Paolo Carafa (Sapienza Università di Roma)
- Dorothee Kimmich (University of Tübingen)
- Inés de Castro (Linden-Museum for Ethnology, Stuttgart)

Hub 3: Possible futures in medicine and health

The Health HUB of the CIVIS Alliance is very pleased to welcome you to Tübingen for a dialogue with generous specialists committed to the future of education and research in medicine and health. On the agenda, recent advances and original initiatives in the fields of digital health and medicine, health of populations, the effect of health policies on the lives of all of us, and the training of the new generations of professionals who will take care of us.

- **14:00-14:15 - Introduction**

Prof. Stephan Zipfel (Faculty of Medicine, University of Tübingen)

- **14:15-14:30 - Artificial Intelligence in Future Medicine**

Prof. Carsten Eickhoff (Interfaculty Institute for Biomedical Informatics IBMI, University of Tübingen)

- **14:30-14:45 - Interdisciplinary exchange between the clinic and medical technologies**

Prof. Bernhard Hirt (Institute for Clinical Anatomy and Cell Analysis, UKT Tübingen)

- **14:45 - 15:00 - Population Health: a Focus on Multigenerational Studies**

Prof. Norbert Schmitz (Institut für Gesundheitswissenschaften, UKT Tübingen)

- **15:00-15:15 - Moving beyond healthcare: the impact of social policies on health**

Prof. Mauricio Avendano (University Centre for General Practice and Public Health, University of Lausanne)

- 15:15-15:30 - The future of medical education: no pain, no gain

Prof. Anne Herrmann-Werner (Medizinische Klinik Psychosomatische Medizin und Psychotherapie, UKT Tübingen)

- 15:30-15:45 - General discussion

Facilitation/Moderation: Prof. Luciano Saso (Sapienza Università di Roma) and Prof. Francesco Panese (University of Lausanne)

Hub 4: Foodscapes and postcolonial landscapes as fields for interdisciplinarity

The CIVIS hub cities, spaces and mobilities will briefly present its topics and cooperation actions already on track. A good opportunity to see how to get involved in the projects. Then, in line with the hub's interdisciplinary work, a panel will explore the potential of the topic *Foodscapes and postcolonial landscapes* as a field for interdisciplinary work. The reflections of this panel will feed part of the hub's future work, notably in terms of participation in conferences, scientific actions, publications and training.

Speakers

- Olaf Kühne (University of Tübingen)
- Stefan Lang (Paris Lodron University of Salzburg)
- Benjamin Wayens (Université libre de Bruxelles)
- Rozsa Tothne Magasfoeldi (Paris Lodron University of Salzburg)
- Robin Lebrun (Université libre de Bruxelles)
- Timo Sedelmeier (University of Tübingen)
- Julia-Deborah Fischer (University of Tübingen)
- Liliana Dumitrache (University of Bucharest)

Hub 5: Making/seeking/sharing homes and being at home in a digital age

Digital transformation also transforms our understanding of what a home is, and where we are at home. This panel session will be an interactive event with spotlights on „smart“/“lively“ homes (Bridgette Wessels, Glasgow), the (digital) efforts of refugee Afghan women to make a new home (Laura Schelenz, Tuebingen), platform-mediated sharing of homes (Airi Lampinen, Stockholm), and being at home in virtual spaces (Anubhav-Kumar Singh and Nick Gorenflo, Tuebingen, Geschwister-Scholl Gymnasium).

As not only the speakers but also the participants are experts on their own “home making“, we will together discuss the opportunities and pitfalls in meeting diverse needs for “home“ in a digital age, ranging from connectedness and control to safeguarding privacy and valuing disconnectedness. What types and sorts of “innovations“ do “homes“ need – and what roles do digital technologies play in them?

Speakers:

- Airi Lampinen (Stockholm University / University of Helsinki)
- Bridgette Wessels (University of Glasgow)
- Laura Schelenz (University of Tübingen)
- Anubhav-Kumar Singh (Geschwister-Scholl-Schule/Gymnasium, Tübingen)
- Nick Gorenflo (Geschwister-Scholl-Schule/Gymnasium, Tübingen)

Moderation:

- Regina Ammicht Quinn (University of Tübingen)
- Michèle Finck (University of Tübingen)
