COMMENDATION OF EXEMPLARY CONTRIBUTION TO POLITICAL THEORY AND INTERNATIONAL STUDIES

In recognition of his exemplary and profound contributions to the fields of political theory, international organization, and European integration over more than three decades, the Centre for Social and Political Research proudly honors Dr. Dimitris N. Chryssochoou. As the Professor of Theory and Institutions of European Integration at the National and Kapodistrian University of Athens, Dr. Chryssochoou has established himself as a scholar of stellar academic ethos whose foundational research continues to reshape contemporary understandings of global governance, sovereignty, and constitutional transformation.

Throughout an illustrious career rooted in rigorous training from the University of Athens, the London School of Economics, and the University of Reading, Dr. Chryssochoou has consistently expanded the frontiers of political inquiry. His exhaustive publication record stands as a testament to his intellectual vitality, highlighted by classic texts such as *Theorizing European Integration* and *Democracy in the European Union*, alongside pioneering recent works including *Sketch on political forms* and his forthcoming volume, *Syspondia of European States*. Through these seminal texts and an expansive body of peer-reviewed literature, he has masterfully introduced and refined sophisticated analytical frameworks—most notably the concepts of "synarchy," "organized plurality," and late-modern "syspondia"—to describe the complex architecture of co-sovereignty and collective symbiosis in multi-level polities.

Dr. Chryssochoou's academic journey reflects a remarkable commitment to global pedagogical and research collaboration. He has shared his expertise across an impressive network of premier institutions worldwide, holding visiting appointments at the University of Oxford, Columbia University, the University of Cambridge, the University of Exeter, and the University of Belgrade, among others. His recent appointment as a Non-Resident Global Fellow at the Viswanity Foundation in New Delhi further underscores his enduring engagement with international scholarly communities and his capacity to bridge Western political thought with global constitutional developments, as evidenced by his co-edited work, *Cooperative Federalism in South Asia and Europe*.

The Centre for Social and Political Research takes immense pride in celebrating Dr. Chryssochoou's rich legacy of intersubjective understanding, civic potential, and the pursuit of a democratic *res publica*. His life's work serves as an invaluable intellectual compass for researchers, educators, and practitioners striving to navigate the structural complexities and uncertainties of our contemporary political world.
